Hailey Rissolo

Front End Web Developer / UI UX Designer

I find fulfillment in problem solving, working on a team, and being presented with new challenges. My background in Multimedia Design has given me the confidence to reliably produce detail oriented, well planned and curated content. I'm excited to be in a field with plenty of potential to learn more. I am currently attending Nashville Software School and will graduate from the bootcamp program in February 2021.

Experience

Nashville Software School

Apprenticeship / August 2020 - February 2021

- Intensive full-time, six-month software development boot camp anchoring learning with both individual and team-based projects
- Tech stack: JavaScript; HTML5; CSS3; React.js; SQL Fundamentals

Projects:

Midway Capstone: Repti-Romance / October 2020

- https://github.com/hrissolo/repti-romance
- Showed CRUD: create, read, update & delete
- Made a responsive app using React & Javascript

Sam & Zoes

Lead Barista & Key Holder / August 2018 - November 2019

- Motivated and trained fellow staff members
- improved my own communication and verbal skills

Climb Nashville

Youth Team Climbing Coach / January 2019 - December 2019

- I was in a role of leader and role model
- Gained confidence overseeing a large group and being a team player
- I've influenced and guided the climbing team to be inspired by themselves and their peers

Planet Ten Multimedia

Intern / August 2017 - May 2018

- I examined my ability to juggle multiple projects with tight deadlines
- My knowledge base of proofreading, filing, computer skills & problem solving grew on a daily basis
- I remained open minded and curious about any projects that I could gain experience participating in

Go Ape

Zipline Instructor & Duty Manager / Feb 2017 - Feb 2018

- I discovered that I have the ability to thrive in a fast-paced, dynamic work environment
- After only 4 months of Instructing, I was offered a role in the cabin as Duty Manager
- Established lifelong connections with coworkers and guests
